

MULTITANK

3 YEAR
WARRANTY

The MULTITANK is favoured among architects and design consultants and is available for use with either MEGABLUE® or MAXIBLUE® pumps. The tank incorporates an energy efficient solid state level sensor which eliminates the use of moving floats, which often become stuck. By manifolding a number of fan coil units into the 1.5 Litres MULTITANK, it offers the installer complete flexibility surrounding any multi-unit installation.

C21-014

REVOLUTIONARY SENSORY TECHNOLOGY

With no moving parts the MULTITANK offers a reliable alternative to stuck or sunken float switches. Incorporating our patented and proven thermistor technology the hi-low solid state level sensor only runs the pump when condensate is produced. With no moving parts to become clogged or stuck it is an ideal alternative to existing float switches.

DIMENSIONS (MM)

*PUMP SOLD SEPARATELY

OPTION 1: MULTITANK WITH MAXIBLUE®

Designed for high lift applications (8m) the MULTITANK and MAXIBLUE® make an ideal combination. Quiet enough for ceiling mounting and powerful enough for remote location makes a wide variety of installation possibilities a lot faster and simpler.

OPTION 1: MULTITANK WITH MEGABLUE®

Offering exceptional performance the MEGABLUE® can remove condensate far away and fast. With a head of 20m (6 storeys!) the MULTITANK with MEGABLUE® can be used as a remote central collection point for condensate drainage.
