

## Defroster for Fridges, Freezers and Wine Cellars

### Product Description

AXE is a fast and effective defroster for melting ice and simplifying its removal. Applying it directly on refrigerator surfaces slows down the formation of new ice.

AXE can also be used effectively to remove ice that sometimes grow on the outdoor units of air conditioning systems. In this case as well, AXE would slow down its further development.

AXE is formulated with taste-free Food Grade raw materials, so, any small residues do not affect the safety and quality of the food present in the refrigerator.

Does not require rinsing. It is suitable for the HACCP plan.

It is recommended to use AXE also before cleaning, sanitising or purifying the surfaces, to allow direct action of the treatment on them.

AXE must be used by a skilled operator, equipped with the appropriate personal protective equipment.

AXE can be used inside systems in operation, thus avoiding downtime and preventing stored goods from deterioration.

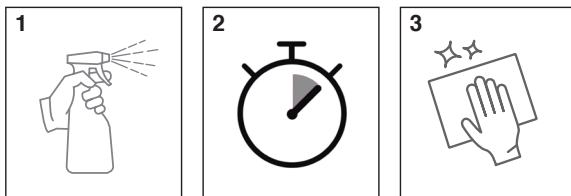

### Features

- Specific for refrigerator surfaces.
- Ideal for removing ice from outdoor units of A/C systems.
- Slows down the development of new ice.
- Does not require rinsing.
- Certified food grade product.
- Suitable for the HACCP plan.
- Ready to use.

### Application

1. Apply AXE generously to the entire surface to be treated.
2. leave the product on the surface for a few minutes.
3. facilitate the detachment of the ice with a more or less energetic mechanical action depending on the quantity to be removed.

**NOTE:** If the ice is very thick, repeat the operation several times and, if necessary, make holes (paying attention to any elements or pipes which may be damaged) into which large quantities of AXE can be inserted. If necessary, extend the action time of the product before proceeding with mechanical action.

### Packaging disponibile

Art.-Nr.	AB1082.K.S1
Packaging	1L Flacon with trigger
Pcs. per packaging	6
Packaging (L x H x D cm)	25,5 x 17 x 33,5
Pcs. per pallet (80 x 120 x H 200cm)	570

The products are made entirely of 100% recyclable plastic.

### Hazard Warning

#### Warning

**Hazard statements:** H226 Flammable liquid and vapour. H319 Causes serious eye irritation.

**Precautionary statements:** P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P280 Wear eye protection. P403+P235 Store in a well-ventilated place. Keep cool. P501 Dispose of contents/container in accordance with applicable regulations.

### Professional usage product.
