

Product Description

CLENCH is a high-performance alkaline cleaner formulated for cleaning evaporators that require a significant descaling action. Due to its strong alkaline formulation, CLENCH acts as an acid, removing very stubborn saline dirt, yet it is extremely safe for the system components. Recommended for restoring neglected A/C systems or those located in extremely aggressive environments such as evaporators installed in kitchens, food production, frying areas or slaughterhouses. CLENCH can be diluted with water up to 1:5 depending on the type of dirt to be removed. The more concentrated the product is used, the more effective it will be.

Features

- Specific for evaporators
- Safe for surfaces and operators
- Can be diluted up to 1:5
- Recommended for restoring neglected A/C systems
- Ideal to be used for A/C systems located in extremely aggressive environments
- With Anti-corrosion protection

Evaporator Application

1. Switch off the system.
2. Dilute the product according to the type of dirt to be removed (Can be diluted up to 1:5 with tap water).
3. Apply the product to the entire surface to be treated.
4. Wait 5 minutes for the product to act.
5. Rinse thoroughly with water.
6. Dry the surface with a clean, soft cloth.

In case of severe corrosion, facilitate the removal with an abrasive material. Avoid contact with delicate materials.

Available Packaging

Art.-Nr.	AB1069.K.01	AB1069.P.01	AB1069.D.01
Packaging	1 L Trigger Spray Bottle	5 L Tank	10 L Tank
Dilution	1:5	1:5	1:5
Pieces per Pack	6	2	1
Size (L x H x D cm)	25,5 x 17 x 33,5	29,5 x 19,5 x 28	28 x 25,5 x 34
