

VIPER ICE MACHINE CLEANERS

ICE MACHINE CLEANER 2.0

Until now, ice machine cleaners were nothing more than low tech Phosphoric acid. Our Viper Ice Machine cleaner is formulated with an advanced blend of organic acids that will remove more scale faster than any other product of its kind. It is a stronger acidic cleaner that is lower in toxicity, non-fuming, less corrosive and environmentally preferred over Phosphate based chemicals.

Nickel Safe

Use 8oz of cleaner for every 250-300lb per day of ice production. Our cleaner has been tested and approved to be safe for use on Manitowoc nickel plated evaporators.

Maximum Strength

Use 16oz of cleaner for every 250-300lb per day of ice production for ice machines using stainless steel evaporators.

NICKEL SAFE CLEANER

P/N: RT500N	16 oz
RT500G	GALLON

Registered for use in all food processing areas.
